

YEAR 5 MATHS TARGETS – ('Tick IN THE BOX' when achieved consistently in School

P = PUPILS, T = TEACHERS)

NAME _____

CLASS _____

Number and Place Value

I can read, write, order and compare numbers up to at least 1,000,000 (one million) and say the value of each digit.

P T

I can keep multiplying a number by 10 or 100 up to 1,000,000 and count back.

P T

I can use negative numbers in context when looking at temperature or money, counting forwards and backwards through 0.

P T

I can round numbers up to 1,000,000 to the nearest 10, 100, 1000, 10,000 or 100,000.

P T

I can solve number and practical problems that involve ordering and comparing numbers up to 1,000,000, counting forwards or backwards in steps, using negative numbers, and rounding.

P T

I can read Roman numerals up to 1000 and recognise years written in them.

P T

Addition and Subtraction

I can add and subtract numbers with more than 4 digits using written methods.

P T

I can add and subtract 2 and 3 digit numbers in my head.

P T

I can use rounding to check answers to calculations and determine levels of accuracy.

P T

I can solve addition and subtraction problems needing more than one step and can work out which operation and method is the most suitable.

P T

Multiplication and Division

I can find multiples and factors of a number and can identify factors common to 2 different numbers.

P T

I can use vocabulary relating to prime numbers, prime factors and composite numbers.

P T

I can work out if any given number up to 100 is a prime number and can recall prime numbers up to 19.

P T

I can multiply numbers with up to 4 digits by a 1 or 2 digit number using formal written methods.

P T

I can mentally multiply and divide numbers using the times tables.

P T

I can divide numbers with up to 4 digits by a 1 digit number, using formal written methods, and can explain remainders.

P T

I can multiply and divide whole and decimal numbers by 10, 100 and 1000.

P T

I can identify and use square numbers and their notation.

P T

I can identify and use cube numbers and their notation.

P T

I can solve problems involving multiplication and division, including using factors and multiples, squares and cubes.

P T

I can solve problems involving addition, subtraction, multiplication and division, and a combination of these, including understanding the meaning of the equals sign.

P T

I can solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates.

P T

Fractions

I can compare and order fractions whose denominators are all multiples of the same number.

P T

I can find and name equivalent fractions of a given fraction, including tenths and hundredths.

P T

I can write equivalent fractions of a given fraction, including tenths and hundredths.

P T

I can identify mixed numbers and improper fractions and convert from one to another such as $2/5 + 4/5 = 6/5 = 1 1/5$.

P T

I can add and subtract fractions whose denominators are all multiples of the same number.

P T

I can multiply fractions by whole numbers using objects and pictures.

P T

I can read and write decimal numbers as fractions such as $0.71 = 71/100$.

P T

I can identify and use thousandths and can explain how they relate to tenths and hundredths and their decimal equivalents.

P T

I can round numbers with two decimal places.

P T

I can read, write, order and compare numbers with up to three decimal places.

P T

I can solve problems involving numbers with up to three decimal places.

P T

I can identify the percent symbol (%) and how it relates to parts per hundred, hundredths and decimals.

P T

I can solve problems which require knowing percentage and decimal equivalents of $1/2$, $1/4$, $1/5$, $2/5$, $4/5$ and those fractions with a denominator of a multiple of 10 or 25.

P T

Measurement

I can convert between different forms of metric measurement e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre.

P T

I can understand and compare equivalences between metric units and common imperial units. These might include: inches, pounds or pints.

P T

I can measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres.

P T

I can calculate and compare the area of rectangles (including squares), including using standard units, square centimetres (cm^2), square metres (m^2), and estimate the area of irregular shapes.

P T

I can estimate volume by using 1cm^3 blocks to build cuboids (including cubes), and capacity by using water and different containers.

P T

I can solve problems where I need to convert between units of time.

P T

I can use all four operations to solve problems involving measure such as length, mass, volume, money, using decimal notation, and scaling.

P T

Properties of Shape

I can identify 3-D shapes, including cubes and other cuboids, from 2-D representations.

P T

I can estimate and compare acute, obtuse and reflex angles. I know that angles are measured in degrees.

P T

I can draw given angles and measure them in degrees.

P T

I can identify angles at a point and one whole turn.

P T

I can identify angles at a point on a straight line and $1/2$ a turn (total 180°).

P T

I can identify other multiples of 90° .

P T

I can use the properties of rectangles to find related facts, missing lengths and missing angles.

P T

I can tell the difference between regular and irregular polygons. I can do this using reasoning about equal sides and angles.

P T

Position & Direction

I can identify, describe and represent the position of a shape following a reflection or translation. I can use mathematical vocabulary to explain this and I know that the shape has not changed.

P T

Statistics

I can solve comparison, sum and difference problems using information presented in a line graph.

P T

I can complete, read and interpret information in tables, including timetables.

P T

MY STEPS
