Year 3 Maths – Friday 15th February 2019.

This week, the children have been learning all about fractions. They have been finding out how fractions are written - the bottom number or denominator shows how many pieces it is split in to and the top number or numerator shows how many of those pieces we have.

They have been using this information to find fractions of amounts and to recognise equivalent fractions. Please complete print this week's homework out and stick it in your book.

For each shape shade the fraction shown.

1 $\frac{2}{3}$

3  $\frac{3}{4}$

5 $\frac{7}{10}$

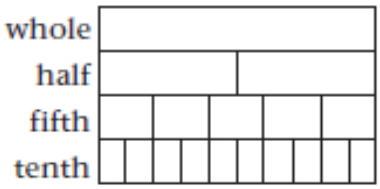
7 $\frac{2}{5}$

2 $\frac{1}{6}$

4  $\frac{4}{9}$

6 $\frac{3}{8}$

8  $\frac{5}{6}$



Use the fraction charts to complete these equivalent fractions.

9 $\frac{1}{2} = \frac{\square}{8}$

11 $\frac{1}{4} = \frac{\square}{8}$

13 $\frac{2}{5} = \frac{\square}{10}$

15 $\frac{1}{2} = \frac{\square}{8}$

10 $\frac{1}{5} = \frac{\square}{10}$

12 $\frac{1}{2} = \frac{\square}{10}$

14 $\frac{3}{4} = \frac{\square}{8}$

16 $\frac{4}{5} = \frac{\square}{10}$

Find one third of:

17 21 .....

18 27 .....

19 18 .....

20 30 .....

21 12 .....

22 24 .....

Find one quarter of:

23 20 .....

24 28 .....

25 32 .....

26 16 .....

27 36 .....

28 24 .....

Find one sixth of:

29 48 .....

30 18 .....

31 30 .....

32 54 .....

33 42 .....

34 36 .....
