

Multiplication Practice

Roll a dice 4 times. Generate a random number.
Then roll it once more. Set it out in a 4 digit \times 1
digit multiplication. E.G

		4	9	2	3	
	x				6	
<hr/>						
<hr/>						

Repeat 5 times. Use a random dice roller online if you have no dice at home, just type (D10 roller in google.) Challenge someone at home, who can get the right answer first. Please think about presentation when you're writing these in your homework books.
