

School's Information Report:

How we support children with Special Educational Needs and Disabilities

ST MICHAEL'S
C of E PRIMARY
HIGHGATE

To nurture and inspire our children to develop a love of learning in a supportive Christian community and become the best they can be.

Introduction

St Michael's School, like all schools in Haringey, is committed to meeting the needs of all pupils including those with special educational needs and disabilities (SEND).

Our expectation is that children and young people with SEND will receive an education that enables them to make the best possible progress so that they:

- achieve well
- have a joy of learning
- become confident, healthy individuals living fulfilling lives
- make a successful transition into adulthood, whether into employment, further or higher education or training.

Pupils, staff, parents and governors work together to achieve pleasure and excellence in all aspects of school life.

Type of School

St Michael's is a two-form entry mainstream primary school. We have a nursery for children aged 3-4. Children start our Reception classes in the academic year they turn five.

What does SEND mean?

Special Educational Needs and Disabilities (SEND) is a term which describes children who find learning harder than others of the same age. This may be because of a learning difficulty or disability.

The Special Educational Needs and Disabilities that are provided for

Our school currently provides additional and/or different provision for a range of needs, including:

- Communication and interaction, for example, Autism Spectrum Conditions, speech and language difficulties
- Cognition and learning, for example, specific learning difficulties including dyslexia and dyspraxia; moderate learning difficulties
- Social, emotional and mental health difficulties, for example, attention deficit hyperactivity disorder (ADHD); difficulties in relationships with other pupils and adults which may reflect underlying mental health needs; attachment needs
- Sensory and/or physical needs, for example, visual impairments, hearing impairments, epilepsy, motor skills and coordination difficulties, cerebral palsy, physical disability and complex medical needs.

Identifying pupils with SEND and assessing their needs

We will assess each pupil's current skills and levels of attainment on entry, which will build on previous settings and Key Stages where appropriate. Class teachers will make regular assessments of progress for all pupils and identify those whose progress:

- Is significantly slower than that of their peers starting from the same baseline
- Fails to match or better the child's previous rate of progress
- Fails to close the attainment gap between the child and their peers
- Widens the attainment gap.

This may include progress in areas other than attainment, for example, social needs.

Slow progress and low attainment will not automatically mean a pupil is recorded as having SEND.

When deciding whether special educational provision (described as 'SEN Support') is required, we will start with the desired outcomes, including the expected progress and attainment, and the views and the wishes of the pupil and their parents. We will use this to determine the support that is needed and whether we can provide it by adapting our core offer, or whether something different or additional is needed.

Consulting and involving pupils and parents

We will have an early discussion with the pupil and their parents/carers when identifying whether they need special educational provision. These conversations will make sure that:

- Everyone develops a good understanding of the pupil's areas of strength and need
- We take into account the parents'/carers' concerns
- Everyone understands the agreed outcomes sought for the child
- Everyone is clear on what the next steps are.

Notes of these early discussions will be taken by the SENCO and a copy given to their parents/carers.

For children with special educational needs, the class teacher and SENCo will meet with parents each term and more often if necessary. For children with an Education and Healthcare Plan (EHCP) one of these will be an Annual Review meeting, where we may invite outside professionals involved with the child and a representative from the local authority.

Assessing and reviewing pupils' progress towards outcomes

We follow the graduated approach and the four-part cycle of **assess, plan, do, review**. Class teachers continually assess, plan and review their approach to ensuring that all children make progress.

Where a pupil is experiencing difficulties working at age-related expectations despite Wave 1 support (see below), teachers will first meet with parents and the Inclusion Leader to gather more information to inform teaching approaches and interventions.

Our approach to teaching pupils with SEND

Teachers are responsible and accountable for the progress and development of all the pupils in their class.

There are 3 'Waves' of support:

- **Wave 1:** all class teachers provide inclusive, high-quality teaching for all children, differentiated to take account of individual learning needs.

Most children's needs can be met through high quality teaching and Wave 1 support. This may involve teachers adapting what they do and having different approaches to meet different learning styles, personalised learning arrangements for different pupils and a range of interventions normally provided by the school. Any additional intervention or support works in conjunction with high quality teaching.

The SENCO meets with all class teachers termly and works with staff to ensure that those pupils who may need additional or different support are

identified at an early stage. In addition, the school uses assessment and tracking data to identify children in need of support.

- **Wave 2:** some children require time limited targeted interventions in small groups in order to keep up with their peers and make expected progress.

These interventions may be delivered by the class teacher/HLTA/TA, overseen by the SENCO, and may include: evidence-based catch-up programmes for numeracy, reading or writing; intervention to meet speech and language needs, fine and gross motor needs including handwriting, and social, emotional and mental health needs.

The class teacher, in consultation with parents/carers and the SENCO will develop a Provision Plan, setting outcomes for the pupil, agreed support and review date.

This Plan will be reviewed termly by the class teacher and parents, progress towards the outcomes recorded and next steps agreed. If a child has met their outcomes, the special educational provision can be ceased through joint agreement at the review meeting with the SENCO.

- **Wave 3:** additional, highly personalised interventions for a small percentage of children with SEND identified through our on-going assessment process.

At Wave 3, the SENCO may ask outside professionals to provide advice, prepare a specific programme or provide direct input. This may involve:

- Intervention and support from specialist teachers of the hearing or visually impaired
- Visits from specialist teachers of pupils who have ASC
- Observation, consultation or assessment by an Educational Psychologist (EP)
- An assessment and follow up support from a Speech and Language Therapist (SALT)
- An assessment by a psychologist from the Child and Adolescent Mental Health Service (CAMHS)
- Assessment and advice from the Occupational Therapist (OT) or Physiotherapist
- Advice from other Health professionals.

All teachers and support staff who work with the pupil will be made aware of their needs, the outcomes sought, the support provided, and any teaching strategies or approaches that are required. We will regularly review the effectiveness of the support and interventions and their impact on the pupil's progress.

In the case of a very small number of pupils where there is still insufficient progress despite additional or different interventions and support being in place and reviewed over time, and advice and input from outside agencies, the school may apply, with parental consent, to the local authority of residence for a statutory assessment of their SEND. Pupils and parents will

be fully involved and kept informed. The local authority may accept or reject an application for statutory assessment. Where the local authority agrees to formally assess a pupil's SEND, this may result in the Local Authority drawing up an Education, Health and Care Plan (EHC Plan). This may come with the allocation of additional funds to the school from the local authority to meet the child's needs.

When the progress of a pupil with an EHC Plan is broadly in line with local and national expectations and the support they receive is no longer necessary for them to continue to maintain progress, discussions will take place with other professionals involved and parents to consider asking the local authority to cease to maintain the EHC Plan.

Supporting pupils moving between phases and preparing for adulthood

- The school places a great emphasis on sharing information and providing supported, positive transitions for all children moving to and from the school.
- When a child moves up to the next class, we organise handover meetings where teachers and support staff make sure that the new Class Teacher and TA have a clear understanding of the needs of all children. Provision Plans for children receiving SEND support are shared and discussed.
- We hold a 'Step up day' at the end of the summer term for children to spend the day with their new teacher.

Secondary transfer:

Our aim is for all children with SEND to be well equipped for transition to secondary school and for adult life.

- We have a secondary school information evening in the autumn term of Year 6 and offer all parents/carers a meeting to discuss transition with the Deputy Head/Head of Key Stage 2. All pupils have induction sessions at their new school.
- We welcome visits from secondary school staff to get to know our children with SEND in the familiar setting of their primary school. We invite secondary SENCOs to the Year 6 Annual Reviews of children who have an EHC Plan.
- We will share information with the secondary school or other setting the pupil is moving to. We will agree with parents/carers and pupils which information will be shared as part of this.
- We keep in touch with the secondary schools that our children with SEND attend, to provide any further support around transition and to hear about their progress.

Adaptations to the curriculum and learning environment

The St Michael's Senior Leadership Team – including the Inclusion Leader - work with teachers and support staff to provide effective teaching and support for children with SEND in a variety of ways. These include:

- carefully differentiated planning which ensures that all children are able to make progress;
- supporting the class teacher to take full responsibility for the learning and progress of all children
- using a wide variety of teaching approaches, including guiding learning through demonstration
- creating visually supportive, communication friendly classrooms
- providing visual support material
- providing a stimulating, rich and interactive classroom environment
- using regular, clear and rigorous assessments that help teachers to track pupils' progress and identify gaps in their understanding
- using our marking policy to make sure that children know how to improve their work
- providing additional adult support from well trained and well supervised Teaching Assistants
- making available specialist equipment and digital /assistive technology to support access and participation in learning.

Specialist Outside Services when extra help is needed

Sometimes a child will benefit from additional help and advice from specialists outside the school.

We have an Art Therapist spend a day at our school working with children and parents.

A Speech and Language Therapist works one day per week in school, seeing children in Key Stage one and with an EHCP, if recommended in their Plan.

Other specialists working with the school include:

- Educational Psychologist
- Occupational Therapist
- Physiotherapist
- Haringey Autism Team
- CAMHS

- Social Services
- School Nurse
- Hearing Impaired Service
- Visually-Impaired Service
- Specialist Healthcare Experts.

Expertise and training of staff

Our SENCO/Inclusion Leader Linda Kennedy is highly experienced in whole class teaching and in devising, delivering and monitoring programs of support for pupils with SEND. Linda is allocated three days a week to manage SEN provision.

We have a dedicated team of teaching assistants (TAs), including higher level teaching assistants (HLTAs) who are trained to deliver SEN provision. All TAs receive regular training that is responsive to the SEND needs within the school. In addition, they attend individual training sessions to develop their specialist knowledge, for example about particular SENDs or approaches, or individual medical needs. Teachers and support staff also undergo a rigorous performance management process where training needs are identified and supported by Senior Leaders.

How We Check That a Child Is Making Progress

We evaluate the effectiveness of provision for pupils with SEN through:

- Ongoing monitoring of progress towards agreed outcomes by the Class Teacher and SENCO
- Termly Reviews of pupils' individual progress towards their outcomes, with parents/carers, Class Teacher and SENCO.
- Reviewing the impact of interventions after [number of] weeks/ termly?
- Annual Reviews for pupils with EHC Plans.

Including pupils with SEND in activities available to those in the school who do not have SEND

Our school has many extra-curricular activities and clubs.

We aim to ensure that all pupils with SEND have the opportunity to engage in these activities alongside their peers.

- All of our extra-curricular activities and school visits are available to all our pupils, including our before-and after-school clubs.
- All pupils are encouraged to go on our residential trip(s) to Flatford Mill (Year 4) and PGL (Year 6).

- All pupils are encouraged to take part in sports day/school plays/special workshops, etc.
- No pupil is ever excluded from taking part in these activities because of their SEN or disability.
- Parents and carers of children with SEND are always encouraged to visit the school in order to assess its suitability for their child's needs. You can view our Admissions Policy on our website.
- St Michael's is located on a large, multi-level site with a combination of old and new buildings that have internal staircases. Parents/carers of children with SEND are encouraged to speak to the Headteacher to discuss the reasonable adjustments the school can make to include their child. For information on accessing facilities, please also see our Accessibility Policy, which can be found on our website.

Who to Contact to Discuss a Concern?

At St Michael's we are responsive to any expressions of concern made by parents/carers and try to resolve concerns amicably. Parents who have a complaint about any aspect of SEND should initially contact the school office to make an appointment with the SENCO. If the matter remains unresolved then an appointment should be made to see the Head teacher. Parents may also ask to contact the Governor responsible for SEND, Cordelia Brown.

Contact details of support services for parents of pupils with SEN

Haringey's SEND Information, Advice & Support Service (SENDIASS) for parents/carers of children with Special Educational Needs and disabilities is provided by Markfield. Information about the service and contact details can be found here: <https://markfield.org.uk/sendiaass/>

You can call their Reception (Open 9:30am – 5pm weekdays) 0208 800 4134
Or email: enquiries@markfield.org.uk

The Local Authority local offer

The local authority must publish information about SEND provision that is on offer for children and young people in the borough. To find out more about the range of services available in Haringey go to:
<https://www.haringey.gov.uk/children-and-families/local-offer>
